

## **Atlantic Records 75th Anniversary LP Reissue Series - 75 Top Atlantic Titles Reissued by Analogue Productions**

We are beyond excited to announce a “75 for 75,” a new series of 75 vinyl releases from Atlantic Records’ storied catalog to celebrate the label’s 75<sup>th</sup> anniversary.

Beginning later this year, Analogue Productions and Acoustic Sounds will plan to release two Atlantic LP titles per month for a series that will extend over more than three years and 75 records. Each two-LP title will be cut at 45 RPM and will retail for \$60, with one title comprising four LPs and retailing for \$120. Titles may change from those initially announced and the order of release is subject to change.

Some details about this historic series:

- We will be using the best mastering engineers in the world, including Bernie Grundman, Ryan K. Smith, Kevin Gray, Chris Bellman and Matthew Lutthans. There will be various reasons why we may choose different mastering engineers for individual projects as we aim to make this the absolute highest quality series.
- While our plan is to do two titles per month, there are a lot of variables that go into these productions. For that reason, we ask for your patience as we realize that the series could extend beyond our initial projections.
- We will be using the original, analog master tapes for these reissues. But there are a few newer artist titles that were recorded to hi-res digital. For those titles, we will of course cut from the digital masters. And there may be a few older titles for which the absolute analog master tape is no longer available or is in poor condition. In those cases, we will use a tape copy if we determine that it is the absolute best available source. In all such cases, we will disclose the source used in the mastering.
- As we get into working on these 75 titles, there may be a couple of substitutions. For example, we may get to a record for which we can't find a suitable source. In that type of scenario, we would select a different top title.
- Each release will be packaged in the highest-quality tip-on gatefold jacket. Most will be provided by Stoughton Printing, but because of paper shortages and delays, we may need to find other high-quality printers to provide some jackets.
- While we are committed to releasing 75 of the greatest titles from this historic label, each individual project is subject to the approval of the artist's management. We are still hard at work on clearing some titles.

**You have an opportunity to reserve the same numbered-edition, Quality Record Pressings copy of each title!**

The first 2,000 pressings of each title will be numbered editions and pressed at our own Quality Record Pressings. Beyond the first 2,000 pressings of each title, non-numbered copies will be available and will be pressed at either Quality Record Pressings or RTI. If there are any limited-numbered pressings that are not reserved, these will be sold on a first-come, first-serve basis. However, if you purchase one of these copies, you will not be guaranteed the same serial number on a different title. Series subscribers within the continental United States will enjoy free shipping. All other customers will be charged shipping when each record ships.

**To guarantee your same number for each QRP pressing, we are requiring prepayment for the entire series. Email [subscriptions@acousticsounds.com](mailto:subscriptions@acousticsounds.com) to reserve your copies. We ask that only collectors with a very serious interest in this opportunity contact us.**

**Additionally, we are releasing non-numbered Super Audio CD editions of these reissues. SACD titles will retail for \$35 (one double for \$60).**

We can't wait to bring you this historic Atlantic Records 75th Anniversary series. This great label includes some of the best artists and records of all time. We're honored to have been chosen as a partner for such an important reissue series. We are committed to doing our absolute best to bring you the highest-quality versions of these records that have ever been released.
